

Event idea:

Innovac23 will be a 2 days event. In this event we will be organizing total 3 type of activities - Bug bounty, replica and Games. Students from NITT and colleges will get a chance to show their skills. To participate in the event, students can register themselves online on the website provided. Registration process will be day wise/ event wise. Students can register for any/all the events of their choice.

Vision: Day wise activities in the event are as follows

1. Day1- Bug Bounty: Registered students will get a code, then their challenge is to find the error. whoever completes the challenge within given time will get a certificate.

The first winner will get certificate and prize worth Rs.3000. The second winner will get a certificate and prize worth Rs.1500. And the third winner will get certificate and prize worth Rs 700.

Total students allowed - 50 (on first come first serve basis)

Entry fee: 100/-

2. Day2- Replica: Registered students will get a challenge to solve a single question with 5 different algorithm approaches .

The top 3 students will get certificate and prize.

The first winner will get certificate and prize worth Rs.3000. The second winner will get a certificate and prize worth Rs.1500. And the third winner will get certificate and prize worth Rs 700.

Entry fee: 100/-

Venue: For the first day, the venue will be the computer lab.

For the second day, venue will be the computer lab.

Budget: The event registration fee will cover the event cost.

People needed: Approx 20 people (who will run the event for all 3 days)

Publicity: Publicity of the event(event detail and registration process) will be done via pamphlets poster and social media (like whatsapp, Instagram, Twitter,linkdin etc..) and we can add in the club website.
